

RE Biography

Hello, my name is Miss Cowie and I have been a teacher at the Federation for 5 years. I am delighted to introduce myself as the Subject Leader for Religious Education. Since I was young I have always had an interest in different religions and cultures around the world, therefore I am passionate about fostering a deeper understanding of the world's religions within our schools.

Our Religious Education programme is designed to offer children an insightful exploration of various religions, their traditions, practices, and beliefs. Through engaging lessons and activities, we aim to develop our pupils' understanding of the world's religions, promoting an appreciation of the rich tapestry that forms our diverse society.
